

Proof

《求证》

$= \sqrt{\pi}/2$

话剧《求证》围绕一份神秘的数学证明展开。年轻女子 Catherine 与父亲 Robert 共同生活在一所老房子里，长期的相处让她既贴近他的世界，也逐渐被其影响。与此同时，Robert 的学生 Hal 前来整理他的研究笔记，希望从中找到重要的发现；而姐姐 Claire 的到来，则试图为这个逐渐失序的家庭带来理性与控制。

当一份极具突破性的数学证明被发现，问题随之浮现：这份证明究竟出自谁手？在不断试探与质疑之中，信任开始动摇，关系逐渐拉紧。记忆与现实交错之间，《求证》以细腻的笔触描绘出天赋与不安、亲密与怀疑之间那条难以言说的边界。

Proof centers on Catherine, a young woman living with her father Robert, a once-renowned mathematician. As Robert's former student Hal arrives to examine his notebooks, and Catherine's sister Claire pushes for stability, tensions begin to surface within the family.

When a groundbreaking mathematical proof is discovered, a question emerges: who wrote it? As doubt and suspicion grow, trust begins to unravel. Moving between memory and present reality, Proof explores the fragile boundary between brilliance and instability, and what it means to prove not only a theorem, but one's own sense of self.

$\exists x \in \mathbb{R} :$

$f(x) = 0$

关于剧作家 · ABOUT THE PLAYWRIGHT

David Auburn 是美国剧作家，以细腻刻画人物心理与关系见长。《求证》是其代表作之一，通过理性与情感的交织，探讨天才、记忆与自我认同的主题。

David Auburn is an American playwright known for his insightful exploration of human relationships. His play Proof blends intellectual inquiry with emotional depth, examining themes of genius, memory, and identity.
